Find only the most current video content to support nursing training programs

Nursing: Current Concepts and Practices Collection is tightly curated to help nursing students excel in their studies, pass licensure exams, and prepare for long-term job success in an increasingly complex health care system. This collection features copyrights only within the past five years and titles from trusted producers such as Classroom Productions, Inc.; Medcom-Trainex; Elsevier; Cambridge Educational; Medivision; Nevco Educational Video Inc.; and others.

Use video in class or as assigned classwork to reinforce complex medical techniques outlined in a textbook.

- Integration tools—view on our *Films On Demand* platform, or integrate individual videos into online course pages, LibGuides, or an LMS using unique URLs, embed codes, or LTI integration options
- Unlimited access from any location—on campus or off
- Tablet- and mobile-friendly
- Create and share playlists—use premade clips, full videos, or custom segments
- Create quizzes within individual videos and share within a custom class or email list
- All videos have captions, interactive transcripts, citations, translation options, and more
- Public performance rights and no copyright infringement worries

Nursing: Current Concepts and Practices COLLECTION

Featuring up-to-date titles from these trusted producers:

DEDICATED TO THE HEALTH OF ALL CHILDREN™

...plus many more!

HIGHLIGHTS:

CLASSROOM PRODUCTIONS

Caring for the Dying Patient (©2020)

This three-part series addresses the care needs of dying patients: Physical Care, Team Approach to Comprehensive Care, and Bereavement Issues. The information and scenarios consider all age groups as well as the impact on family dynamics and the potential for exhaustion for family caregivers.

Patient Care in the NICU (©2019)

This six-part series examines complications before and immediately after delivery, discusses the ongoing care that the compromised infant may need, and examines a wide range of pathologies, focusing on identification and management.

Cultural Awareness in Healthcare (©2020)

This three-part series addresses the need for cultural awareness in the provision of health care, showing how cultural diversity

impacts mutual understanding on many levels and in a variety of aspects of daily life.

Coming soon from Classroom Productions:

- Procedural Sedation Series
- Pain Management Series
- EKG Interpretation & Response

MEDCOM-TRAINEX

Suctioning (©2018)

Using demonstrations, this two-part series examines the fundamentals of suctioning and teaches techniques for nasotracheal, oropharyngeal, and endotracheal suctioning.

Coming soon from Medcom-Trainex:

- Wound Care
- Basic Math for Nurses
- Confidentiality

ELSEVIER

Clinical Skills Essentials Collection (©2021)

Help students learn to master the most important nursing skills before they ever step foot in the clinical environment. From

special patient and safety considerations to the equipment and techniques used, this assembly of more than 150 short videos, each highlighting a specific skill, will leave students with a deep understanding of how to safely and effectively perform each skill.
